

Directory for Moccasin

INFORMATION & HISTORY

HETCH HETCHY POWER PLANT.

The Hetch Hetchy Powerplant supplies electricity as part of the San Francisco Water and Power system, using water that flows from the aqueduct that comes down the hill via penstocks and ends up in the small reservoir. The water then goes through a 157 mile aqueduct [verify length] under Don Pedro reservoir to the Bay Area.

RECREATION

MOCCASIN CREEK FISH HATCHERY.

Fish hatchery operated by the state of California raises various species of trout for planting in lakes and streams. Tours available. Hwy 49, Moccasin.
